Trusted Comfortable & Caring Dentistry

Why we may be perfect for you and your family

Worried about visiting the dentist? We have years of experience using a gentle, calm manner to consult with patients that have not visited the dentist for years because of many reasons. Some avoid the dentist because they fear discomfort, others for financial reasons. Let us put you at ease. We have all types of patients that have had all the same conditions that you may present to us and we are happy to explain, educate and suggest many treatment options for your specific condition and

This quarter's topic - Flossing

Well, we all heard the most recent findings and despite the recommendations remain the same. We should floss. There have been countless studies that were not mentioned from the past, one of which was reported in the Houston Chronicle that discussed flossing, gum health and heart disease. Prevention is the key to keeping our bodies healthy and flossing is one small component that helps keep our teeth, gums and circulatory systems in good condition. We are offering a new patient special for \$139.00 which includes an Exam, 4 bitewings X-Rays and a cleaning. Call us to schedule!

Flossing, the hidden secret!

Did you know that flossing your teeth helps to prevent heart disease? Bacteria present on the teeth, if not removed regularly can make its way into the bloodstream and lodge on the heart valves or stick to the walls of arteries leading to heart attack or stroke.

We are accepting new patients, please call the number below for an appointment today!
